### HOSTEL MANAGEMENT SYSTEM

It is a simple hostel management system that has been developed for reducing the issues related to hostel management. It also has some additional features such as leave form approval, event management, online hostel fee payment, generating bills, etc.

### WOMEN SAFETY APPLICATION

It is an SOS app that also includes a spy cam detection feature. It gets 4 contacts as input. During emergency scenarios, we press the power button of our phone 2 times, then an SOS is sent to all 4 contacts with our latitude and longitude information (because it can be easily detected offline).

### STUDENT MANAGEMENT SYSTEM

Useful in representing student information in the form of bar graphs and pie charts which will be useful for the teachers to get a better analysis of the students.
